

Inspect-and-adapt activity

- Obstacle Classification and Deletion
- Videos for this week
- Character Animation
- Obstacle Animation
- Database work
- Login System and Security
- Home Screen Functionality / Pause Screen / Any kind of pop-ups

What is and is not working

- Is
 - Communication
 - Being productive with time spent
 - Dividing and conquering
- Isn't
 - Not spending enough time
 - Inconsistency of time available to spend on project.
 - Problems with Git
 - Procrastination on milestone
 - Meeting in person
 - Pair programming basically not happening.

Ideas for making it work better

- Asking people (Particularly Peter) for help when you need it.
